SPRAY A2

ID Product Code 003

Pag | 1

Spray polisher for bronze, metals and marble

Product description:

Specific product to polish and protect decor elements, statues, monuments in bronze, bronze alloys and metals in general from outside exposure. Product in spray form, does not contain resins nor solvents. It enhances color and gives excellent gloss to treated material. SPRAY A2 does not turn yellow and does not contain propellants harmful to ozone.

Chemical characteristics:

Appearance	Aerosol
Color	Transparent
Odor	Characteristic of solvent
Specific gravity at 20° C (68° F)	0,57 ± 0,02
Hydro-solubility	Not soluble
pH	N.A.
Shelf life at 20°C (68° F)	24 months in original container

* indicative values, depending on the nature of the material and environmental conditions

Instruction for use

Spray at 25 cm distance from the area to be treated; if very dusty, spray at 5-10 cm and apply more product; then wipe using a soft clean cloth until material is dry and clean. In case of very dirty metal, it is suggested to clean or brush before, in order to remove part of visible impurities.

Suggestion for use and recommendations:

- Do not exceed with application because excesses of product could make the subsequent polishing more difficult.
- Read carefully recommendations printed on the label and perform always a preliminary test before use.

Application surfaces

Marble, Bronze, bronze alloy, metals, stones.

Safety procedures

As far as the proper working procedures is concerned, we recommend to consult Material Safety Data Sheets issued according to E.U. rules and to follow your national laws concerning safety in the working place. MSDS is available on our web site www.bellinzoni.com
