

## ANTI STAIN NATURAL LOOK

Water based, odourless, water /oil repellent impregnating sealer it maintains the natural finish to the material. Great "bead effect" it prevents water from pooling and protects the surface from moisture and stains in general. It prevents dirt and grime to stick and penetrate the surface pores making it easier to remove the dirt with a neutral solvent free detergent (B-LEM 3 EXXTRA CK).

## SURFACES

The product is recommended for marbles, granites, natural stone and gres porcelain.

## FEATURES

Protective water-based solution for all indoor and outdoor hard surfaces; it can be used on damp surfaces.

## METHOD OF USE

Remove all debris, dust and previous applied waxes from the surface using XTREME HD CLEANER or SUPER CLEANER. The surfaces must be dust free, clean and dry before application. The product is ready to use. Apply a thin coat of product uniformly in one direction using a brush, micro-fiber cloth, wax applicator or roller. Let it dry for approximately 15-20 minutes before applying a second coat in the opposite direction from the first. Remove the excess product or residues, if any, within 15 minutes from application with a dry cotton or microfiber cloth.

## CHEMICAL PROPERTIES

APPEARANCE:	Liquid
COLOUR:	Colourless
ODOUR:	Odourless
SOLUBILITY:	Soluble in water
PH:	4,50±0,50

## COVERAGE FOR LITRE

Marble, granite polished:	Approx. 15-20m <sup>2</sup>
Gres porcelain tiles:	25-30m <sup>2</sup>

(Product coverage may vary depending on type and porosity of material where used)

## PACKING

Code	Content	Pc./Carton
P092BLMG10L	1 lt	6
P092BLMG50L	5 lt	4

MADE IN ITALY

## ADVANTAGES

It protects the surfaces from a wide range of oil and water based staining substances. Durable, UV resistant and non-yellowing protector, the product let the material "breathe". Due to its hydrophobicity the product prevents liquids and moisture absorption, preventing the growth of mildew and mould. The treated surfaces are maintained quicker and easier due to its "easy-clean" effect. Due to its zero VOC content the product can be safely used indoors or little ventilates places. Thanks to its specific formulation, the product respects the requirements of 2010/2015 PFOA Stewardship Program US FPA (related to the Impact on human health and environment).

## ADVICE

Do not walk on the treated surfaces for at least 6-8 hours from application. The surfaces are full protected after 24 hours from application.

### ATTENTION:

Carefully read the recommendations printed on the label. Store in the original packaging. Do not dispose of the container in the environment after use, follow the disposal information indicated on the label. Keep out of reach of children. Check the actual resistance of the material to the product on a hidden portion of the surface to be treated. The product can revive some materials, check in advance on a small portion of the surface. It does not protect against the action of acids. When using the product, use suitable PPE and consult the safety data sheet.
