MADE IN ITALY

ATTENTION:

Carefully read the recommendations printed on the label. Always test before use. Do not dispose of the container in the environment after use, follow the disposal information indicated on the label. Keep out of reach of children. The product has anti-stain properties but does not protect surfaces from acids. Check the actual resistance of the material to the product on a hidden portion of the surface to be treated. When using the product, use suitable PPE and consult the safety data sheet.

SURFACES

The product is suitable for all stainless-steel surfaces, fridges, cooking hobs and hoods, kitchen top, working and coking surfaces.

FEATURES

It removes greasy fingerprint and smudges fast leaving the surfaces clean, polished and protected. The product creates a micro-barrier against the dirt and makes it easier to remove it with its Fast-Clean effect. It dries fast and leave no smudges.

HOW TO USE

Spray the product directly to the area to be cleaned from a 5-10 cm distance approximately. Wipe the surface with a microfibre cloth until the product is completely dry.

ADVANTAGES

The steel surfaces will be cleaned and protected against dirt for a long time and also it will become easier to clean. Thanks to its low VOC content of 0,05% (Directive 2010/75/UE) the product can be safely used indoors.

ADVICE

Rinse with water the trigger nozzle after every use.
